

TRAN QUANG KHAI

Software Developer

☎ 0389346149 ✉ dev.khaitran@gmail.com 💻 <https://github.com/TranQuangKhai288> 📍 Thu Duc City - Ho Chi Minh City

SUMMARY

Final-year Information Technology student aiming to become a Software Developer. Gained practical experience in database design, API development, and frontend implementation during internship. Quick learner with a proactive attitude and strong teamwork skills.

PROFESSIONAL EXPERIENCE

Software developer (7/2024 - 12/2024) Tech JDI Viet Nam

Project: AI Knowledge Base (6 Members, 3 AI, 3 Full-stack)

- **Description:** The internal AI chatbot application is designed to help employees quickly access company information, using data sourced from internal systems while ensuring strict confidentiality.
- **Technologies:**
 - Front-end: Refine + TypeScript + AntD + Tailwind CSS
 - Back-end: Express JS + FastAPI + MongoDB
- **Responsibilities:**
 - Member of Full-stack team
 - Designed and implemented the project's folder structure to support clean architecture, modular development, and long-term maintainability.
 - Main backend development, including database design, system architecture, and implementation of RESTful APIs for all core features.

Project: My Wealth Advisor (5 members in Full-stack team)

- **Description:** A role based multi level HR management web platform for a company, enabling senior users to delegate permissions and manage multiple subordinates and collaborators; key features include profile management, task assignment, and performance monitoring.
- **Technologies:**
 - Front-end: Refine + TypeScript + AntD + Tailwind CSS
- **Responsibilities:**
 - Built user interface based on provided designs using modern frontend technologies - Refine.
 - Integrated APIs from the backend and optimized web performance for better user experience.
 - Fixed bugs reported by testers during the QA phase to ensure a stable and reliable application.

Mobile developer (4/2025 - 6/2025) Freelancer for a team in UIT

Project: Sweat (6 Members, 1 PM, 2 Designer, 2 Front-end, 1 Back-end)

- **Description:** A mobile social networking app for sports enthusiasts, enabling users to actively recruit casual players, book fields, and form play groups with ease and flexibility.
- **Technologies:**
 - Front-end: React Native CLI + TypeScript
- **Responsibilities:**
 - Built user interface based on provided designs using React Native CLI
 - Integrated APIs from the backend and optimized web performance for better user experience.
 - Fixed bugs reported by testers and Assisted with app release on Google Play.

EDUCATION

SOFTWARE ENGINEER
University of Information Technology -
VNU - HCM 📅 2021 - Present

SOFT SKILLS

- Problem solving
- Communication
- Self-learning
- Adaptability
- Teamwork
- Time management
- Research
- Critical thinking

SPECIALIZED SKILLS

Front - end

HTML

CSS

JavaScript

TypeScript

React JS

Refine

React Native

Bootstrap

Material UI
